

**Introducing:**

## **Premium Oxygen (O<sub>2</sub>) Sensors**

- **Direct Fit**
- **High impact, top moving SKU's**
- **Premium construction**
- **Competitively priced**
- **ISO/TS:16949 Certified Manufacturer**

After more than 35 years of supplying market leading brands, **IPC Global Solutions**, a leading manufacturer of premium aftermarket products, **is proud to introduce:**

## **»»VPS Premium Oxygen (O<sub>2</sub>) Sensors**

IPC Global Solutions has leveraged their time tested technical expertise to deliver a new offering of Premium Oxygen Sensors to the automotive aftermarket. The VPS Premium Oxygen Sensor product line is a high impact, resource efficient line of top moving oxygen sensors for today's aftermarket.

***With 75 SKU's, VPS delivers value to customers with a competitively priced option on the fastest moving models.***

Manufactured in an ISO/TS:16949 certified plant, VPS Oxygen Sensors are built to meet the challenges of a growing market. VPS is direct fit, comparable to OE in design, and ready to be installed out of the box with no assembly required.

## **»»VPS Premium Oxygen (O<sub>2</sub>) Sensors** ***A high impact line for a fast growing market***
